Cureing themselves of the

Secret Disease, or a Gleet,
Whilst they Bait, or Set up at their Inn,
Without the Knowledge of any One,

In above a FOURTH Part of the Time, and
with far less Trouble, than they ever possibly
Can, by taking Physick AT HOME.

Dr. Cockburn speaking of this Method of Cure of this
Distemper and A Gleet, expressly says,

"A Gonorrhæa is thus Sooner, and far Better Cured
"than any other Way, And the Greatest Heat of Urine
"is taken off by it in a Few Hours, which often resists
"the best Medicines, the very worst Effects of a Gonorrhæa
"being Cured by it in the Shortest Time, & without
"any Pain,

Dr. Cockburn, Of a Gonor. Pag. 151.

at the Sign of Dr. Chamberlen's famous

A N O D Y N E N E C K L A C E

For Children's Teeth, FITS, Fevers, Convulsions, &c.
over against Deuieux-Court without Temple-Bar.

AND by the Authors SERVANT R. Bradshaw,
Whose Business is Purposely to Furnish Persons at
a DISTANCE OFF, with any of the Things in this Book
they shall send LETTERS to him for, — To his House,
The GOLDEN KEY in Bal. Ally LOMBARD STREET.

Which is the Great Continual Thorough-Fare from Lom-
bard-street into George Yard, Birchin Lane, and Cornhill,

Over against the ROYAL EXCHANGE.

L O N D O N : Printed by A. Parker in Jewin-Street. 1733.

Of the Venereal, or Secret D I S E A S E.

WHEN a Person has unhappily contracted *This* Distemper, it commonly *First* shews it self by a Redness, Heat, Inflammation, Soreness, Swelling, and Uneasiness of the *Part* that *first* received the *Infection*.

In *Some*, it begins with an *unusual* kind of Itching, and as it were a Glowing, and Throbbing of the *Part*, with little Twitchings, Tinglings, Dartings, & Shootings in the *Passage*.

In others, only a little Red Spot, Wheal, or Pimple will appear on the *Part* like a Flea-Bite or Meazle, which growing *Sore*, becomes what is afterwards called a *Shancere*.

These *Symptoms* are soon followed by a Dripping of Matter from the *Passage*, which turns afterwards of a Yellowish or Greenish Colour, as will appear by the Linnen,

And which Matter drying on the Orifice of the *Passage*, Gums it up, and divides the Urine into a double Stream, and is commonly attended with a Heat & Smarting of Urine.

These are the usual *Signs*, and *Symptoms* of the Disease in *Either* Sex, whilst it is in it's *FIRST* Stage, or Degree:

And which *Symptoms* are more or less *Severe*, according to the *Degree* of *Infection* receiv'd, Some Persons finding no great Hurt for some *Time* after having received the Injury, when others may be severely Pepper'd from the *Begining*.

Whenever therefore any Person upon *Comparing* their Case with the *Symptoms* here described, shall find in themselves any of them, they ought soon to have Recourse to some *Remedy*, and harbour no Doubt of their Case, as too many to their *Ruin* too long do,

Who thro' an unwillingness to be in such a Pickle, (*desirous* as most are, to put off the *Evil Day*) will hardly be perswaded that their Case is what in Reality it is, or at least fancy that it will *Wear off* of it self without using any thing for it:

Which vain persuasion has been the *Ruin* of many a one, who had they but taken the thing in *Time*, might have been presently Cured, Whereas by *Neglect* and *Delay*, they have afterwards been put upon *Salivations*, and other dangerous *Mercurial Methods* of Cure, & perhaps scarce ever thoroughly well Cured at last, and this for oftentimes only a *slight* Injury, which might at *First* have been Easily Cured.

Whereas, the longer this Distemper is let run on unregarded, the deeper it always Rivets it self, and the worse it grows:

It being the Property of this Disease, that when it lies hid, it lies not Idle, but will appear sooner or later, when Persons least expect it: Which makes it not at all safe to neglect the least apprehensions of it, but to have Recourse in time to some safe remedy for a cure

A SHORT WAY AT ONCE *with the Cure*
of this FIRST Degree of the Distemper.

THE Symptoms of this FIRST Stage, or Degree of the Venereal Distemper, being those Uneasinesses of that Outward Part of the Body that First took, & received the Infection just now described, By consequence This Distemper in this its First Stage, is no more than *An Injury, done only to That ONE Part of the Body that First received the Infection, without any Taint at all as yet of the Blood, or other Parts.* And therefore

The readiest way to Cure it, is by an *Outward Application* to that Part it self, to Take the Infection away from it.

Just as when a Person has got a Sore Finger, or a Broken Shin, the Application of some *Proper Remedy* to the Place it self that is Hurt, is the *most immediate, & Best Way* to Cure it.

So that the Case being *the same* in our present Question, the *Readiest Way* to make a Riddance of the Disease *At Once* whilst, it is thus in it's *First Stage*, is by a Certain

Chymical CLEANSING LOTION,

Which, without taking any thing at the *Mouth*, Frees the Person from the Venereal Infection, by taking it away from the Part *it self* that received it, and this by only Washing the Part *With*, and *Soaking* it IN this *Sovereign Lotion*.

Thus, the Use of this Lotion being with the utmost Privacy, and **SOON DONE**, it can never betray a Person's Condition, if they will but be true to themselves :

Whereas other Methods are troublesome, keep the *Cure* long in Hand, & betray the Person into the Bargain.

The *Cleansing Faculty* of this *Chymical Lotion Liquor* being so wonderful in this Case, as to leave no Venereal Venom in the Part, if the End of the Part is but **SOAKED** in it, to Draw, Soak and Cleanse it out.

So that by this easy *Remedy* Persons are cured without *Physicking, Confinement, Hindrance* from Travelling, or Business, or the Knowledge of others, 'tis so Easy a Cure.

If therefore any Person compares the Fatigue of a long tedious Cure without a Lotion, with the Expedition, Ease & Privacy with which a Lotion performs a Cure;

If they compare Pain to present Ease, & a Cure in a *Day or Two*, to *One* Drill'd out to several Weeks, they must lay aside all *Reason*, if they do not out of Hand make Use of it.

For in Common Infections A FEW WASHINGS only of the Part with a Proper Cleansing Lotion, performs the Cure.

Of the EASY Use of this Lotion:

IF the Part it self that took the Infection is SORE, Hot, Swell'd, Red, and Inflam'd, with any Smarting of Urine, or Dripping from it, or any Pimples on it.

Then pour into a Tea Cup a Spoonful or 2 of this Lotion Liquor, & put the Part into the Cup, & Hold it in it, and let the End of it Lie and Soak a Minute or 2 in it, to SOAK & DRAW the Venereal Infection OUT of it.

And then WASH the whole Part it self with the Lotion Liquor, according to the Directions that are with the Lotion.

This WASHING, and Soaking thus the Part Cures it, & immediately takes away the Running, & Heat of Urine.

So that Persons have found themselves so soon Cured by this Easy Lotion, that they have been surpris'd at it.

This Incomparable LOTION, and Easy Cure AT ONCE of this most wretched Distemper, is Sealed up with Directions in English and French, Price 7 s. 6 d.

And will be delivered to any Messenger, Or it shall be immediately SENT to any Person that will WRITE (as in the next Page) for it by the Name of the *Cleansing Lotion*.

And therefore,

By Reason of the very great Success of, and Demand there is for this LOTION, and the other Remedies in this Book,

FOR the more immediate Conveniency of those who Either Cannot, or do not CARE TO FETCH Any of these Things *Themselves*, altho they may Live but a Street or Two off from where they are Sold.

Also, For the Conveniency of those who Live At A DISTANCE OFF, and whose Business may not Lead them to those Parts of the City of London, where Directed to above in the Title Page) will send to them, Carriage Free, what they Write to him For.

Every Reader is desired to take Notice of the Following Easy, Feasy, & Convenient WAY of any Person's coming by this Lotion, or any thing else in this Book.

AND when any Person Writes for Any of these Remedies, They may (if they mention it) have also The Treatise Entituled *Erouania* on the hainous Vice of Self Defilement, and Of the Use, and Abuse of the Marriage Bed Sent to them *Gratis* along with it.—Otherwise to Pay for it, it is a TWO SHILLING Book.

That

That Any Person who may live any where in, or about *London*, and has not perhaps Leasure to Go so Far as Where Directed to above in the Title Page, may the more *Easily* come by This LOTION, the *Specifick*, or Other Remedies in this Book.

Notice is Hereby Given, That

A SERVANT is employed on Purpose to Carry any of them *Privately* to whoever WRITES for them,

If they Direct but the least Note by the *Peny Post* to the Author's SERVANT R. Bradshaw, Whose express BUSINESS (He being Employ'd *Wholly* for this Purpose) is to furnish Persons at A DISTANCE OFF, by Sending safely in a little Box to any Person any of these things they Send LETTERS to him for, if they Direct but their Letter to Him at His House, Thus,

TO Mr. BRADSHAW, at the Golden Key
in Ball-Ally, LOMBARD STREET,
LONDON.

So that as soon as ever the *Post-Man* brings your Letter, You shall immediately have BROUGHT to you what you write for (*Carriage Free*) any where in, or about LONDON, & with the utmost *Privacy*: Or what you Write for, shall be Left, till called for (if you like it better) at any House *Privately* for you, under any Feigned Name you shall order.

Again.—Many a Person living a Little way off, who may be in PRESENT WANT of either this Lotion, or the following *Specifick*, &c. and for want of a *Present Convenience* of coming by them, may say to themselves, that after a while I shall Go that Way, and Then I'll have it, &c.

But because each Day's Delay makes their Distemper only become worse, Therefore Here is an Easy Way put into Every ones Hands of SOON coming by any of these Remedies, and as Private, as if they Fetcht 'em themselves,

Or if you live any where FAR OFF in the Country, if you do but Write the least Note by the *General Post*,

What you write for shall be immediately SENT to you (*Carriage Free*) by any Carrier, Stage Coach Man, Hoy Man, or any other Person you shall appoint in your Letter.

So that by thus Writing by the POST, any one in the Country FAR FROM LONDON, may with all Ease, Expedition, and Privacy come by any of these Things.

And so Cure themselves of the Venereal Distemper, in any private Family where they live in the Country, without any one in the Family's knowing of it. A 3

*How a proper Lotion for the Venereal Distemper;
or a GLEET, answers the End of Physick.*

THE Reasonableness of what has been above said, will appear still more clear, if we do but consider, that the good Effects of a **CLEANSING** Lotion for the Venereal Distemper, runs equal to our present Purpose, with the Effects of **PURGING**, or a Course of Physick, only with this difference, That A *Cleansing* Lotion shall effect more in a Few Hours, than Purging Can in many Days, and that too without Disturbance, Confinement, or Hindrance of Business, the Infection of the Distemper being Thus far more naturally, and safely taken away from the Sore Part it self, than First to be drawn Inward, & Then to be Carried off by Courses of Physick.

“ Hence (says Dr. Cockburn in his Treatise of a Gonorrhæa) the Cure of the Venereal Distemper can never be so
“ **SAFE, EASY, or SPEEDY** by Physick taken only Inwardly, as it is by a Lotion used to the Part it self, which is much
“ **Easier COME AT**, and much more **AT HAND** to be Cured
“ by a Lotion, than by Physick so Far off from it as the Stomach is.

Who therefore that does but seriously think of it, would be harassed with Courses of Physick (which, whilst the Distemper is in its First Stage, or Degree, have no manner of Foundation either of Reason, or Experience, says Dr. Cockburn, to support their Use) when the Distemper may be much sooner Cured by a Lotion, grounded on the Success of a very large Experience, & with much more Certainty, Ease, and Privacy, than can be imagined from Courses of Physick.

So that Using a proper *Cleansing* Lotion to the Infected Part it self, must in all respects have the Preference:

Because such a Lotion thus used Outwardly to the Part it self, answers the End of Physick taken in at the Mouth, by Cleansing, and Freeing the Part from the Infection.

Experience also confirms that those Sorenesses on the Part, which proceed from the fixing of the Venereal Matter There, may much more Easily be **COME AT**, and Cured by a proper Lotion, than by any Course of *Internal Physick*.

And how a Lotion *Liquor* acts on the Venereal Infection, may be made clear from the following Example.

Suppose a Person so Stung by some Venomous Creature in the Foot, that the Ankle, Instep, Heel, and Toes swell, are inflamed, hot, angry, red, sore, & very painful.

In this Case, What does a prudent Physician do?

He immediately prescribes a proper *Liquor* to be put into a *Basin*, and orders the Stung Foot to be well Soaked in it, to Soak the Venom out of it, and so to Cure it.

The

The Case is the same Here, Because Soaking the Part that took the Infection IN a Tea Cup full of a Proper Lotion Liquor, Soaks the Infection out of it, and so takes it away.

And as for the Venereal Distemper whilst it is in its First Stage or Degree, it is as much, and as properly A Wound, A Sore, A Hurt, and Injury done to that Part of the Body that First received the Infection, as any Sore, Hurt, or Wound, is on a Leg, Arm, or any other Part.

And consequently ought to be Cured by the Same Rational Method of applying Remedies to the Part it self that is Hurt, and injured, without Physick conveyed into the Stomach; which is not at all concerned in the Matter.

And for this Reason it is, that Where we meet with a Sore, Hurt, or Wound in One Person that requires Physick Inwardly, we meet with a HUNDRED that do not.

So that there is no Reason for so much Purging Physick, when there may be applied DIRECTLY to the Part it self, a Remedy that will perform as much, and with Ten times more Certainty, than can be expected from any Internal Physick; and in as few Days, as Courses of Physick require Weeks. What rational Person then, would Take so much Physick, without At the same time WASHING the Part affected with a proper Lotion?

Thus A Person that has not Time all the Week 'till perhaps towards SATURDAY Evening, that they have a little Leasure from their Shop, and Business to apply to a Cure, may by a Proper Cleansing LOTION Cure themselves Before MONDAY, when they must be again in their Shop, and about their Business.

But suppose a Person is Already taking of Physick for the Distemper from some Doctor, Must such a One throw aside their Physick, and depend upon a Lotion?

To this is answer'd, No, by no Means: But such a Person is advis'd to Use a Lotion also on the Same Days they take their Physick on, in order to be Cured a deal Sooner than their Physick Alone cou'd ever Cure them.

Hence it clearly follows, that all Persons under Cure with any Physician or Surgeon for any Gleet, or Weakness, or for any Degree of the Venereal Distemper,

If besides whatever Physick their Doctor shall give them, they use also (*tho unknown to their own Dr.*) a proper Lotion, they will be Cured in above FOUR Times less time (altho their Case be even the 2d, or 3d Stage, or Degree of the Distemper) than would ever be, if they had never used a Lotion along with their other Physick.

And therefore,

A 4

Those

Those who are already UNDER CURE for the Venereal Distemper, or a Gleet, and have Medicines from any Physician whatsoever to take, are advised by all Means to Use a Lotion also along with their Physick, as the only Method to Cure them in About FOUR TIMES Less Time (or thereabouts) than their Physick alone would ever possibly Cure them without.

FOR in this Case, If a Person who has got a Venereal Injury, and is taking Physick for it from some other Doctor, does but (*unknown to the Physician they have their Physick from*) along with the Use of their other Physick, use also *Either a Proper Cleansing Lotion*, if their Case is the Venereal Distemper, Or a *Healing and Strengthening Lotion*, if their Case is a Gleet, the Difference would be *This*:

That by their other Physick *Alone*, we'll suppose they would be cured in a Month or 6 Weeks, when by the Use of a Lotion along with their other Physick, let it be whatever Physick it will, that they take, whether Pills, Bolusses, or other Medicines, they might be Cured in a few Days.

And here every Patient is to take Notice, that a Lotion being a Remedy only to WASH the Part with, it can never be prejudicial to, Interfere with, or Hinder their taking any Physick *Inwardly*, from *Any other Doctor whatsoever*.

Again, Let us suppose a Person under Cure for the Venereal Distemper by taking of Physick *Inwardly*, This Person shall be a long while a Curing by only Internal Physick without a Lotion, to the harrass of their Constitution, as lately happened to one who having taken above 50 Purges of Mercurial Physick from a very noted Physician, was forced to have Recourse to this most excellent Lotion, for a Cure at last.

So that Persons under Cure with *Other Drs.* may Cure their Venereal Sorenesses immediately by Washing the Part with a Lotion, Whereas if they stay 'till Physicking their Stomach alone, Cures such Sorenesses, perhaps it may be long enough first, it being in the Part it self, and not in the Stomach, that the Infection is lodged, and by consequence Physicking the Stomach for an Infection that does not lie THERE, is as much to the Purpose, as to enter into a Course of Physick for only a Cut Finger, or a Broken Shin.

And this made Dr. Quincy, Pharm. Part 2 and 4 say, That the Reason why Practitioners do not use this DIRECT Method of Cure by a Lotion, so much as it justly deserves, is for Fear of making TOO SHORT, and TOO EASY Cures.

And Dr. Bates, Pharm. Ed. 3. p. 455. says expressly, that A Lotion is the best Remedy in the World for a Gonorrhœa.

The

The Case of Persons who have the Venereal Distemper or a Gleet upon them, in Circumstances which will not admit their taking of Physick.

Suppose such a Person is to go a JOURNEY, What must they do? To let their Distemper hang upon them till their Journey's End, will be of no Service, and take Physick during their Journey they cannot.

A Lotion then is the only Proper Cure in the World in these Circumstances for TRAVELLERS.

Because, After they come in to their Inn, whether at Nights, or Noons, they may easily get a Room to themselves, and There Pour out into a Tea Cup a little of their Lotion, and Soak, and Wash the Part Privately with it, and no body ere the Wiser upon such Journies, when they can't possibly take any Physick upon the ROAD.

And so Cure Themselves during their Journey, above FOUR Times Sooner, than they ever possibly can by taking Physick at HOME, & so no Body know of it.

And this in Any Season, or Climate, either in violent HOT Sultry Weather, or in the Hardest FROST,

For, a FEW WASHINGS only of the Part ON THE ROAD with this Lotion, will perform that Cure, which otherwise wou'd be a long while about, by taking Physick,

So that in such Cases, what a Comfortable Refuge must a Lotion be? Without which, there can be no other Cure, considering such a TRAVELLER's Circumstances.

Because, Such a Person cannot possibly take any Physick upon the ROAD, whereas they may Easily Cure themselves with a Lotion in the commodious Easy and Private Manner abovementioned, when they Bait or set up at their Inns in a Room Privately by themselves, during their Journey, and no Body know any thing of the Matter.

But altho Numbers of Persons have cured themselves on their JOURNEY, before they came to their Journey's End of the Venereal Distemper with One only Bottle of the above mentioned admirable Chymical Cleansing Lotion.

And of a GLEET, with One only Bottle of the hereafter mentioned Healing, and Strengthening Lotion.

Yet where Either Case is more Virulent, and Persons are going a Journey some Distance from London.

They are then advised by all Mears to take more than one Bottle of either of the Lotions along with them:

Left they should be inconveniently obliged to break off their Cure in the Middle of it, for want of enough of their Lotion to Compleat, and FINISH it, during the Time that they are AWAY FROM LONDON.

The

The Cure of the SECOND Degree of the Disease.

IF the Distemper is *Let Alone* without *Using Means* for a Cure in it's *First Stage* or Degree, Then *Other Symptoms* will come on *Thick and Fast* upon the Person: The *Part* grows *Sorer*, and when the Person is warm in Bed, is violently pull'd down with a *Cordée*.

In many Persons, a *Foul Matter* will gather underneath the *Fore-skin*, which *Fretting* the Part, makes it *Sore*.

And the *Dripping* of *Matter*, and *Heat* only, and *Smarting* of *Urine*, is now become a *Running*, and a *Scalding*.

Some Persons will have a *Swelling* in their *Groin*, Or one or both *Testicles* will be *fore*, *hard*, & *swell'd*.— Now

To Cure (or prevent if coming on) these Symptoms, which are the proper Signs of the 2d. Stage of the Distemper,

Besides the foregoing *Lotion*, there must be an Addition to it of the famous *Specifick Remedy* (to *Clear* the Body of the *Veneral Infection*) which the Great Dr. *Chamberlen* so Esteem'd, and Recommended to those that enquired of him about it, as he did, which was on the following occasion.

When this *Specifick Remedy* was First Published in *London* in 1713. Numbers Bought of it, & who finding themselves Cured by it, recommended it to others under the same unhappy Circumstances, and who experiencing the same happy effect from it, recommended it also to others:

This coming to the Ears of Dr. *Chamberlen*, moved his Curiosity to Buy the *Remedy*, which he did by sending his Servant with a *Guinea* for it, along with the *Lotion*, &c.

And having at that time some deplorable *Veneral Patients*, he was pleased to try the *Remedy* upon them, the Success of which made the Dr. send his Servant for more of it, and withal writ to the Author to acquaint him with it.

The Author upon this waited on the Dr. and communicated to him the Prescription of the *Remedy*, upon which the Doctor was pleased to fall into the Opinion, that the true *Specifick* for this Distemper was now happily Hit upon.

And therefore gave the following Approbation of this wonderful *Specifick Remedy*, and the *Elixir* for *Broken Constitutions*, and of the famous *Anodyne Necklace* for Children's Teeth.

Dr. *Chamberlen's* Approbation of this *Specifick Remedy*, &c.

I Hereby Testify that I Approve of, and Recommend the *Anodyne Necklace* for Children's Teeth, and Fits, the Great *Specifick Remedy* for the Secret Disease, and the *Elixir* for Broken Constitutions, &c. All which I know to be most proper things for the Purposes design'd. Witness my Hand. P. Chamberlen. M. D.

But

But to return to our Subject of this *Specifick Remedy*.

It is of so peculiar a *Specifick Nature* for the Carrying off a Venereal Infection, that no sooner is it taken (its Dose being only the *Quantity* of a *Pea*, and consequently is an Easy thing to Take) but it presently Carries it out of the Body, and so frees the Person AT ONCE, from any farther ill Consequences from the Distemper.

This Great Remedy is likewise such an utter Enemy to MERCURY, as to Carry it out of the Body of those Persons who have been in Bad Hands in any former Cure.

It carries off also in their Infancy those Venereal Swellings which otherwise would break, called Buboës, & which if once Broke, will most certainly betray your Condition.

Whereas this *Remedy* saves all such Trouble, & sets all to rights again, making the Patient easy and well.

So that the Great Convenience of this *Specifick Remedy* & *Lotion* is, for Persons to Cure themselves with them Privately, and no Body 'ere the wiser, without staying within Doors, Hindrance from Business, or making their Case known to any. Whereas other Medicines keep the Cure long in Hand, & Betray the Person into the Bargain.

If therefore we compare the Privacy, and Ease of such a Cure, to the Trouble in being Cured by the Common Methods, a Person must lay aside all Reason who does not immediately apply to it, being a Method of Cure, infinitely SAFER than all the Salivations in the World.

What a *Pity* then is it, that Persons should be put upon the taking of so much Physick as commonly they are, or to go thro a Salivation, to get a Cure which may be obtained far Easier, & much Safer to the Patient?

ENOUGH of this *Specifick Medicine* for a Cure in Slight Cases, is to be had for FIVE *Shillings* with Directions:

But, As there is a Difference between Burning one's Finger with the Snuff of a Candle, & a Red Hot Iron, so the Infection Received may be of a more Malignant kind than hitherto described, and for that reason when it is so, something MORE of this Remedy will be requisite for a Cure.

Therefore, for such very BAD Cases, is Put up for Half a Guinea with Directions (& to be had also Alone by it self) Enough of this Remedy for such HARDER Cures.

And which Half Guinea Quantity, with the foregoing Lotion, and the following Grain of Powder, make up the Whole Cure of the Distemper, when very BAD indeed.

And are therefore Put up in one *Parcel* together, that the Whole Cure may be Privately carried away in a Persons Pocket to any Place, to Cure themselves Privately with.

The

The Cure of the 3d and Last Degree of the Distemper.

WHat has been HITHERTO said, regards the Distemper in its 1st, & 2^d Stages, or Degrees:

But, if thro Neglect & Delay in getting a Cure of the Distemper, whilst it was in its *First & Second* Degrees,

Or from having been mismanaged in any former Cure, the Infection has got into the BLOOD, & which is known by various *Pains, Aches, Spots, Scabs, Blotches, & Breakings* out about the Body, with *restless uneasy Nights, &c.* which are shrew'd Symptoms of the THIRD & LAST Degree of the Disease, & that it approaches towards the Pox:—Then,

Besides the foregoing Lotion, & Specifick Remedy, which are for the *First, and Second* Degrees of the Distemper,

The Person shou'd take a certain little Grain of a particular *Blood-Cleansing Powder*, to take the Pocky Infection *immediately out of the Blood*, that *Then* the Specifick may Carry it off.

This little Grain of Powder is no more to be taken than will lie on a *Little Silver Penny*, and has nothing of Mercury in it, nor no more Taste than a little Crum of Bread.

And is such a Cure of this Distemper, that it has been surprising to see Persons almost Rotten with it, looking like Death, with Pains & Breakings-out in their Body, & even their NOSE in Danger, cured so easily by this Method.

This *Blood-Cleansing Grain* of Powder may be had separate by it self, Price 3s. 6d. put up with its own *Directions*.

But, as *The above-mentioned Lotion*, with a *Half Guinea Quantity* of the foregoing *Specifick Remedy*, & this *Grain of Powder*, make up the *Whole Cure* of this Disease, when very BAD:

Therefore they are also ALL Put up in One Parcel together, With *Directions* in *English & French*. Price a *Guinea*, for those who wou'd have the *WHOLE CURE* of the Venereal Distemper together at Once.

And

AND as for Persons of either Sex, harrass'd with
Any GLEET, or Weakness,
The readiest Cure is by a Peculiar Chymical
Healing, and Strengthening LOTION,

Of Dr. Cockburn's Recommendation also in his Treatise
Of a *Gonorrhœa* above-mentioned, without any more ado.

For this Chymical *Strengthening* Liquor, by only *Washing* the
Part with it, soon takes away those *Gleets* which before had
Cost many Pounds to Cure, and all in vain, and this
without any Uneasiness or Confinement to the Person.

This *Lotion* will be delivered to any Messenger,
Asking for it by the Name of the *Strengthening Lotion*.
Price 7 s. 6 d. with Directions in *English & French*, —But

Where any Relicks of a former *Venereal Infection* are
still in the Body, and Cause the GLEET &c. —Then

Besides the Use of this *Lotion*, the Person should take of

THE Great DIURETICK Cleanser, and Strengthen
of the Urinary Parts, and Reins, An *Elixir*, to
bring away BY URINE the Relicks of Infection,
known to Lurk in the Body by the following Signs, viz.

A GLEETING, or *Dripping of Matter*, A Foul URINE
of a strong Smell, with Variety of (as it were) *Threads*,
Films, *Skins* and *Hairs* flying about in it, with a *Greasish*
kind of Scum at the Top, and a *Settling* at the Bottom,
with a *Sharpness*, *Pain*, *Heat*, or *Stoppage*, and *Difficulty*
in the *Making*, or *Holding* it, and too frequent *Provocations* to
make it, it's *Dribbling* away Hot, Sharp, or *Smarting*, with
often a *Pain*, and *Weakness* in the *Back*, *Reins*, and *Loins*.

For all which Disorders of the URINE and to bring the
Infection away ALONG WITH THE URINE, together
with any Sand, Gravel, Slime, Little gritty Stones, and
other Hindrances to a Free, and Easy Making of Water,
this Great *Diuretick* Medicine is Recommended.

And to make the Urine which before Dribbled away,
now to be held strongly, and yet to come Easily, Freely,
and FULL STREAM'D away, tho Before, the Person
could not make Water but with *Difficulty*, and by Drops.

And as for any old GLEET, or Dripping, to take it
Quite Away. Price 5 s. the Bottle with Directions.

'Tis also in Guinea, Or Half a Guinea Bottles.

Or *Requisite Quantities* for a Cure of a Severe GLEET,
both *Strengthening Lotion*, & *Elixir* are put up with Directions
At a Guinea Price in One Parcel, for those who would
have the WHOLE CURE of a Gleet together. of

LETTERS concerning the abovementioned famous Specifick Remedy, and the Elixir for Broken Constitutions hereafter mentioned in the SECOND PART of this Treatise.

Should I enumerate the Particular Success I have found in the Use of the most excellent *Specifick Remedy* and *Elixir for Broken Constitutions* since I was first so happy as to use them in my Practice, I should be tiresome

It is sufficient to say that I never found 'em ONCE to fail me even in the most difficult *Venerreal Cases*.

And with *One Half Guinea's* worth of the *Specifick Remedy* & a little more, I have cured FIVE Persons of the *Venerreal Distemper*. And as to the (*Poor*) Person I mentioned, one Bottle of the *Elixir* perform'd his Cure, so that he is now in a full State of Health and Vigour, and blesses the happy Day that ever he took the Remedies, &c.

A Letter from Another Surgeon.

A Friend of mine has made use of the *Specifick Remedy* to his great Satisfaction: It having fully answer'd its Character. He had the *Venerreal Distemper* very severely and being advised by a Gentleman who had been cured by it, to take of the same, it made a perfect Cure:

And by Computation according to this Cure, he has Enough of the Remedy left to cure 3 or 4 Persons more, therefore no Person need grudge the Mony for it, it being well worth it, considering its fine Quality.

I am now giving the same Remedy to another Patient that is very bad, and I don't question a Cure, &c.

I Cannot forbear owning the Success I found by the *Specifick Remedy*: For I got the Secret Disease in a most miserable Degree, and I went to a very eminent Surgeon, and was under his Hands three Months, but not cured.

A Friend of mine told me his Life for mine, the *Specifick Remedy* would cure me; upon which I was resolv'd to try it. I bought it, and took of it: And before I had taken half the Remedy, I found my self perfectly well.

But about a Month ago I got the Distemper again, and unfortunately gave it to my Wife. I did not despair of a Cure, seeing the Remedy was still extant. But first I tried whether there was any Virtue in what I had left.

We both took of it and were quite Cured, and so saved the laying out of more Mony: And tho we have thus saved our Money, yet we both own our happy Cures, &c.

Having the Misfortune of the *Secret Disease*, I took the *Specifick Remedy*, & with five Doses of it was cured: And I cured two more Persons out of the Remainder, &c.

For

For the Use of Gentlemen and Others:

The Famous Cephalick, & Opthalmick TOBACCO

Which by Smoaking a Pipe or two is so good for the Head, Eyes, Breast, Stomach, GOUT, &c.

Also for Thickness of Hearing, Head ach, or Vapours, Or where any Rheum oppresses the Lungs, Breast, or Stomach, causing Wheezings, and Difficulty of Breathing, this Tobacco is good to bring such Rheum away, & give free Breath.

This fine TOBACCO Smoaks Pleasant, & Cool in the Mouth, & Passes away the Time more agreeably than Common Tobacco with Liquor in Company. 12 d. the Large Parcel.

Of this TOBACCO the following Letters were sent.

Being lately in Town, I was for 10 or 12 Days Lame with the GOUT, but being obliged to go Abroad, I happen'd in Cheapside to be with a Gentleman that Smoked a very pleasant TOBACCO, which he very much Recommended for the GOUT, and SORE EYES, with which I was then afflicted. I bought of it, And by only Smoaking of it, am now as well as ever in my life.

Which I will testify to any Person at the Green Dragon in Bishopsgate-street, where I keep a Warehouse with Norwich Stuffs, Trading between Norwich and London. James Scottow.

Having been so Lame with the Rheumatism, & a GOUTY Humor, that I could not help my self for many Weeks, At last I hearing that this TOBACCO was good for the GOUT, and Rheumatism, I sent for some of it, And by Smoaking of it only a Few Times, I recovered the Use of my Limbs as well as ever. So that all my Friends were amazed at such a Change.

J. Pickering, in Sutton Court in Bishopsgate-street.

SEE the Chapter of a BROKEN CONSTITUTION in the Second Part of this Treatise, which is also Given Gratis at the TWO Places above in the Title Page.

Just Published, and Given Gratis, A New System of the GOUT, and Rheumatism, Being an entire New Treatise, Quite Different from all that has been ever Writ on this Subject. With a Method of Cure from Reason, Observations, and Experience.

THE

The following was sent to the Author's SERVANT.
Mr. BRADSHAW,

SOME time ago, I sent for one of your famous Anodyne Necklaces for my Child in so Violent a Fever, & FITS with its Teeth, that we expected its Death: And in a Short Time after we put it on, it gave him Ease, his Fever went off, & his Teeth came without any Pain or Trouble.

I have now Another Boy 19 Weeks old, very much afflicted with the Coming of its Teeth, as we suppose, for he is very feverish and uneasy, and always Raking and Tearing in his Mouth.

Therefore I desire you to send me out of Hand another of your Anodyne Necklaces by the Midhurst Carrier John Tuff, who lins at the White Hart in Southwark, who will pay for it, as also for a Dozen of your Purging Sugar Plums, and a Twelve Penny Paper of the Cephalick TOBACCO which are mentioned in Your Family ALMANACK that you Give Away Gratis. Tho. Fosbrook at Woolbeding in Suffex.

See 2 Letters from France of the KING of FRANCE's Children Wearing this Anodyne Necklace, and all of them Cutting their Teeth Safely, and Well with it, in the 6th and 7th Pages of the Family Almanack, Given Gratis.

For the ITCH,

Or any Scabbyness, or Leprous Breakings-out.

THE famous Chymical Water that so soon Cures the ITCH, or any Scabbyness, or Leprous Breakings-out about the Hands, or Body, by only washing your ITCHY, or other Breakings-out with a Rag wet in it.

It has nothing of Mercury, nor has no Smell, nor fouls Linnen more than fair Water. Price 1 s. 6 d. with Direct.

The Family ALMANACK IS GIVEN GRATIS.

Where Directed to above in the Title Page.

Containing Things for every Month in the Year, which all the Common Almanacks ought to mention for all Families, Shopkeepers, Farmers, Traders, Travellers by Sea, or Land, &c. Yet None of them speak a Word of.

The END of this FIRST PART.
